# Identification of Volatile Chemicals Emitted by Fungal Associates of Bark Beetles

## PROJECT DESCRIPTION

Fungi associated with bark beetles release volatile organic chemicals. However, little is known about the type and structure of chemicals released by these microbial organisms. Neither is known about their function.

## FACULTY-DEPARTMENT

ALES - Renewable Resources

## DESIRED FIELD OF (STUDENT) STUDY

Ecology, Chemistry, Biology, Entomology, Forestry

## INTERNSHIP LOCATION

University of Alberta Main Campus - Edmonton

## NUMBER OF INTERNSHIP POSITIONS

2

## INTERNSHIP START DATE

January 3rd, 2018

## INTERNSHIP END DATE

March 8th, 2018 (or 12 weeks from start)

## ARE THE DATES FLEXIBLE?

Yes
